Wasatch Hospital Gets New Administrator

Wayne T. Terry, New Hospital Administrator

Wayne T. Terry, Assistant Administrator at Utah Valley Hospital for the past four years, has been appointed to the post of Administrator of Wasatch County Hospital in Heber City.

The announcement came from Eugene Beck, Vice President, Intermountain Health Care, Inc., the Salt Lake based corporation

which leases and manages the 40 bed Wasatch Hospital. Mr. Terry will assume his new role in early January, according to Beck, who praised Terry as an experienced, outstanding administrator, well qualified in every respect. "We are extremely pleased to attract a man with such an excellent background," said Beck.

Wayne T. Terry was born and raised in Utah County and graduated from Brigham Young University in 1965. He began his hospital career that same year as Manager of Employment Services at LDS Hospital. In 1973 he came to Utah Valley Hospital as Director of Human Resources and served in that capacity until his appointment as Assistant Administrator in 1979.

During this time Terry studied again at Brigham Young University to earn a Master's Degree in Public Administration. Also, he has been an instructor in business and personnel management at Utah Technical College, an LDS Bishop, and a leader in community and civic affairs.

He is a member of the Orem Chamber of Commerce, has served a term as a member of Utah County Merit Council, as a Board member of the American Red Cross Central Utah Chapter, as a Director and Vice-President of the Utah Valley Credit Union and in many other leadership capacities.

He was also instrumental in organizing the first Hospice program in Utah Valley, which now serves the needs of many terminally ill patients throughout Utah County.

Grant C. Burgon, Administrator at Utah Valley Hospital, commended him as an outstanding leader and an exceptional administrator. "We have enjoyed Wayne's association here at Utah Valley," said Burgon, "and I am confident he will do a fine job in Heber City."

Terry sees his new role as a challenging opportunity to work with the physicians and hospital governing board to provide quality medical care to Heber City and the surrounding area. "I'm impressed with the quality of the medical

community and very optimistic about the future," said Terry.

Mr. Terry and his wife, Joyce, have two children, Steve, 16, and Jennifer, 13.

On Dec. 19, it was reported officially that Mr. Terry W. Lange, administrator, Wasatch County Hospital, would be leaving that position at the end of the year.

Mr. Lange will be accepting a position as Administrative Assistant at the Utah Valley Hospital in Provo, Utah. It will be part of his job to work with citizens in rural Utah to enhance the offerings of the hospital to them.

Mr. Lange's new full-time job at the first of the year will be to work with rural areas of Utah and coordinating some of the things at the Utah Valley Hospital that directly are beneficial to the rural areas. He is going to remind people of the programs at that hospital that are often forgotten. People from as far away as Price, Vernal, and Southern Utah might find it difficult to stop there rather than travel farther to Salt Lake City.
